It is getting to the point that I can barely work with her. It is a struggle to want to help on any project that she is involved in.

Rob,

Please do not request CO for my projects. Feel free to suggest that I request these. When you go directly to Alex and start getting involved in my project work you are disruption communication and creating confusion. We have talked about this several times.

If its something you missed in the quote phase and want to make it one of your RFQs we can do that as well. But there is no need for you to go directly to the installers for anything.

Emily

It could be a change order. There was not guarding that they included in the proposal, or at least, what we need . In Cran3, John Amey has already purchased the guarding. I think our Maint teams should purchase it and install it so that it is done to what Wayfair wants. I had MHS give us a quote for guard rail and banger bars in case we needed them to provide. Totally up to you on what you want to do here.

Hello Emily,

Rob requested highway guarding and banger bars for the sorter. Please review and let me know if you would like to make any changes before I get pricing. Highway guarding and banger bars were not included on the original proposal. The banger bars would be under the platform at the MHE entrances.
